

Great Allegheny Passage 4-Day Adventure

In our opinion, a 4-day, 3-night trip on the Great Allegheny Passage (GAP) is the best amount of time to cover the 148 miles from Point State Park in downtown Pittsburgh to the Visitor center in Cumberland MD. This is a world class, bucket-list rail trail with so many interesting natural and man-made features to enjoy.

Also, we believe camping along the way is a great way to really connect with the landscape and meet interesting fellow travelers from around the country and even the world. 2Wheelescapes takes camping to another level by carrying all your gear, so you can bring serious creature comforts such as big tents, air mattresses, cots, etc.

We travel with a full mobile kitchen for gourmet coffee service and delicious breakfast each morning, fresh healthy snacks for your ride each day, hors d'oeuvres when you finish each day and finally a freshly prepared dinner at camp each night to fill your belly before sleeping under the stars!

In addition to being the most fun way to travel, it is by far the most economical!

The cost for a 4-day, 3-night trip is **\$525 per person**. This includes a shuttle from one end of the trail to the other, camping fees, breakfast and dinner each day, plus the security of having a support and gear (SAG) vehicle shadowing your trip, carrying all the stuff and assisting with inevitable contingencies.

DAY 1: 35 Miles: Point State Park Pittsburgh to West Newton PA

West Newton has a great, brand new camping venue 2 blocks from "Downtown". There are flush toilets and wonderful showers.

DAY 2: 52 Miles: West Newton to Confluence PA

Confluence has a commercial campground operated by the Army Corps of Engineers. There is a separate area for cyclists, and modern bathhouse with flush toilets and hot showers. **OR...**

We will camp at the Paddler's Lane Retreat located just beyond downtown, right on the river with clean modern showers and restrooms.

DAY 3: 31 Miles: Confluence PA to Meyersdale PA

Meyersdale is a quaint trail town with a restored train station/museum containing many artifacts of the region's history.

The Campground is located in the middle of town on the grounds of the annual Maple Festival! Clean facilities with hot showers.

DAY 4: 32 Miles: Meyersdale to Cumberland MD

Easy-Peezy day because the last 23 miles are **DOWNHILL!** This day also has all the most dramatic railroad features of the trail, to include high bridges and 3 long tunnels.

Our small groups provide customers with incredible flexibility during the trip. For example, if the weather is horrid and you don't want to camp, there is always the option of ducking into one of many hotels or B&B's (additional cost). Or, if anyone in the group has a physical, mechanical or emotional breakdown, Staff will be there to get you through!

All trips include a written "Que" sheet each day with points of interest and lunch options.

Other services such as bike rentals, airport pick-ups, extraordinary shuttling, or whatever you need are also available at reasonable additional cost.

And don't forget to ask about the ultimate GAP experience; **THE DOWNHILL BOTH WAYS FLIP-TRIP!!!**

Let us make your bicycle dreams come true!!!
